Existing patients of Westmed Medical Group can access a read-only view of their historical Patient Portal to access medical history, lab results, messages and much more – applicable only for visits prior to November 16, 2021.

By accessing this historic patient portal account, you are able to view and download important medical history and health information that was updated through November 16, 2021. Patients are only able to access this read-only view if they already had an established portal account.

Any health information, results, office visits or secure messages that occurred after this date will be available to you when you log in to your new portal account at www.summithealth.com/westmedportal.

Here's How to Access Your Portal History for Medical Encounters prior to 11/16/2021:

- Visit: https://portalhistory.westmedgroup.com/en/home
- Enter the username and password that you used for your previous portal account (prior to 11/16). Hint: Your username is typically your preferred email address.
- Can't remember your password? No problem. Simply click "Forgot Password" at the bottom of the login screen, and password reset instructions will be sent to your registered email address.
- If you still need help accessing your old portal account, contact us! Email portalhistory@westmedgroup.com for assistance.

NOTE: This is a read-only version of your previous patient portal. Patients are unable to send any NEW secure messages, make updates to health history, or view/schedule appointments in this read-only view.

Please visit or register for your new My Westmed Portal today to manage all of your future healthcare needs and communicate with your Westmed providers at www.summithealth.com/westmedportal
